ABOUT US

PROMPT Engineering & Trading Services CO. WLL. was established in October 2004 with the objective of delivering Technical Sales, Service, and support to a diverse range of industries in the state of Qatar, including Oil & Gas, Education, Utilities, Construction, Medical, and more.

Our dedicated team of Engineers, characterized by professionalism, qualifications, and experience, is well-equipped to address the requirements of sectors such as Test & Measurement, Health Safety & Environment, Gas Detection, Acoustic (Sound), and Infrared Thermography in the State of Qatar.

Representing renowned brands that are global leaders in their respective fields, we have successfully provided professional solutions to our customers. Our offerings encompass a broad spectrum of diagnostic and monitoring equipment for electrical assets in power generation, transmission & distribution networks, and process industries. We also supply a comprehensive range of Safety Products, including Gas Detectors and Personal Protective Equipment (PPEs) to meet safety standards across various sectors. Additionally, our product range caters to professionals in industrial, electric service installation and maintenance, temperature monitoring, indoor air quality assessment, people counting, biomedical testing and simulation, and networking certification and installation.

To ensure accessibility and convenience for our clients, we offer efficient and cost-effective rental services for pre-calibrated equipment, tailored to meet specific needs. Moreover, our fully-equipped Calibration and Service lab, accredited under ISO/IEC 17025 and certified by **ISO 9001, ISO 14001** and **ISO 45001**, adds further value. Calibration, Repair, Service, and Training services are available for all our products through our esteemed principals. Our dedicated team is always ready to address technical queries and provide effective solutions.

At the heart of our company's success are our people. Since our inception in 2004, our workforce has been the driving force behind innovation in all facets of the business. Their unwavering drive and determination consistently meet and exceed the needs and expectations of our valued customers.

CALIBRATION

ISO/IEC Standard 17025:2017 ISO 9001, ISO 14001 and ISO 45001

PROMPT Calibration Laboratory; a distinguished facility accredited to **ISO/IEC 17025:2017** by ILAC MRA signatories, ensuring compliance with a broad spectrum of calibration needs for our esteemed customers in Qatar. The laboratory is approved by **QGOSM & Ashghal**. Our commitment to quality is further exemplified by certifications in **ISO 9001, ISO 14001** and **ISO 45001**, reflecting our dedication to excellence in management system, environmental responsibility and occupational health and safety.

With over two decades of proven expertise and a strong presence in the industry, we are committed to supporting our customers in meeting both international and national standards. Through a seamless and unbroken chain of calibrations, we ensure full traceability, consistency, and technical integrity in every measurement. Our approach is focused on delivering dependable, accurate, and high-precision results, giving our clients complete confidence in the reliability of their instruments and processes.

At **PROMPT**, our capabilities extend across various calibration requirements, including Electrical, Thermal, Mechanical, Environmental, Chemical & Gas parameters.

We take pride in catering to the diverse instrumentation and calibration needs of major sectors such as Oil and Gas, Medical, Education, Industry, Contracting, Energy, and more. Trust us to meet your calibration needs with precision and reliability, backed by two decades of industry expertise.

ELECTRICAL CALIBRATION

SOURCE AND MEASURE:

Voltage AC/DC, current AC/DC, Resistance, Frequency, Capacitance, Temperature simulate, Insulation resistance, Continuity, Loop, RCD, Earth resistance, PATs with insulation resistance, Ground bond leakage current, Flash voltage and load test, Source high ohms, High voltage resistors, High voltage output of meghom meters, Portable and bench insulation testers, Trip current and trip time, leakage current for direct / touch Hipot testers etc

THERMAL CALIBRATION

TEMPERATURE: Temperature Controller, Temperature Indicator, Temperature Recorder, Temperature Guage, Temperature Transmitter, Infrared Thermometer

TEMPERATURE CHAMBER: Oven, Incubator, Chiller, Freezer, Muffle Furnace, Autoclave, Cold Storage Room

HUMIDITY CHAMBER: Humidity Logger, Meters, Recordes, Sensors

MECHANICAL CALIBRATION

DIMENSIONAL:		Caliper, Dial Gauge, Bore Gauge, Micrometer, Measuring Tape, Laser Distance Meter, Depth Gauge, Depth Micrometer, Feeler Gauge, Height Gauge, Ring Gauge, Thickness Gauge, Standard Foils etc
FORCE	:	Torque Wrench, Torque Device or Meter, Compression / Tensile Machines etc.
PRESSURE	:	Pneumatic and Hydraulic Pressure Guage, Pressure Recorder, Pressure Switch, Pressure Transmitter, Safety Relief Valve.
FLOW	:	Flow Meter / Transmitter
VIBRATION	:	Vibration Meter, Vibration Analyzer
VELOCITY	:	Hot Wire, Vane Type and Pitot Tube, Anemometer
WEIGHTS & BALANCE	:	Micro Balance, Precision Balance, Analytical Balance, Electronic Balance, Weighing Scale, Test Weights

ENVIRONMENTAL CALIBRATION

Portable Gas Detector Calibration, Light Meter &Humidity Sensors / Loggers / Recorders, Sound Level Meter, Sound Level Calibrator

CHEMICAL CALIBRATION

pH meter, Conductivity meter, ORP meter, Turbidity meter

OTHER SERVICES

Thermography Survey, Portable Appliance Testing (PAT) Noise Monitoring, Onsite Calibration, Indoor Air Quality Survey

Cirrus Research plc

DISTRIBUTOR AUTHORISATION LETTER

To whom it may concern
Whereas we, Cirrus Research plc, who are established and reputable manufacturers of Sound Level Meters and Noise Dosimeters, having office at Acoustic House, Bridlington Road, Hunmanby, North Yorkshire, YO14 0PH, United Kingdom, do hereby confirm that

Prompt Engineering and Trading Services CO. W.L.L.
of
Shop No 19 & 20, Building No 6, Barwa Village, Wakra, P.O.B 24067, Qatar

is authorised to promote, sell and support products manufactured by Cirrus Research plc for the country of Qatar. Prompt Engineering and Trading Services CO. W.L.L. is equally authorised to present, submit and obtain technical specifications, certificates and local approvals for products manufactured by Cirrus Research plc.

Furthermore, we commit to extend technical support and after-sales service requested by our distributor, Prompt Engineering and Trading Services CO. W.L.L., for the typical life expectancy of our products.

All juridical proceedings related to sales and service contracts issued in Qatar or governed by Qatari law are the sole responsibility of Prompt Engineering and Trading Services CO. W.L.L..

KYORITSU

Registration NO. 1QA00173-1
Date of Issue : April 09, 2026

Kyoritsu Electrical Instruments Works, Ltd. hereby confirms the company
Prompt Engineering & Trading Services Co. W.L.L
Barwa Village, Wakra, Building No.6, Shop No.19 & 20, P.O. Box 24067, Qatar

as the authorized distributor of our products in Qatar.
Certificate Validity : April 01, 2026 - March 31, 2027

Masamichi Kuramoto, President
KYORITSU ELECTRICAL INSTRUMENTS WORKS, LTD.

FLUKE.

AUTHORIZATION LETTER

To whom it may concern

We, Fluke Europe B.V., who together with our affiliated companies are official manufacturers of industrial test & measurement equipment, hereby confirm that Prompt Engineering & Trading Services Co. W.L.L., with a principal place of business at P.O. Box 24067, Barwa Village, Wakra Building No. 6, Shop No 19 & 20, Doha, State of Qatar, is our authorized distributor in the State of Qatar.

Prompt Engineering & Trading Services Co. W.L.L. is authorized to promote Fluke Industrial Group products, Fluke Calibration products and Fluke Process Instruments products (the "Products").

Prompt Engineering & Trading Services Co. W.L.L. can offer support and provide after sales services, including warranty support services for the Products in accordance with our standard warranty terms for the Products.

Title: Director

Duly authorized to sign this Authorization on behalf of Fluke Europe B.V.
Dated: 03 november 2025

Morehouse

To Whom It May Concern

Letter of Authorization

We, Morehouse Instrument Company, an established and reputable manufacturer and calibrator of force and torque calibration equipment having factory and main office at 1742 6th Ave. York, PA 17403, USA

do hereby authorize

Prompt Engineering & Trading Services Co. WLL.
Barwa Village, Wakra, Building No 6, Shop No 19 & 20,
P.O.B 24067, QATAR

to bid, negotiate and conclude contracts in Qatar according to the conditions laid out in the Conditions for Sale, Export and our valid price list for items within our production program.

Morehouse guarantees to provide fully the equipments as above and our support for the Bidder to provide to you with installation, training, servicing and warranty in accordance with contract which is signed by Bidder with you. The warranty cover manufacturing defect for 12 months after installation or 18 months from ex works shipment whichever comes first.

For, and on behalf of, manufacturer,

AUTHORIZATION LETTER

Date: October 17, 2025

This is to confirm that the following company:

Prompt Engineering and Trading Services Co. WLL

Located at:

PO BOX - 24067, Doha Barwa Village, Wakra Building No 6, Shop no. 19& 20, Wakra, Qatar

Is an authorised non-exclusive distributor for the sales and marketing of;

Extech,Flir T&M, Ex, Exx and T Series, SI124
In United Arab Emirates, Qatar

This authorization is valid until October 17, 2026 unless revoked in writing before that date.

This document is just describing the status and is not serving as a legal document. Instead the actual terms are defined and agreed in a FLIR non-exclusive distribution contract which is valid for a timeframe of three years and then reviewed and where applicable renewed.

Portable gas detectors. Safety, compliance and productivity

Accidental gas leaks pose a considerable threat to properties, environment and human life. Therefore, Honeywell Analytics and BW™ Technologies manufacture and produce a full and comprehensive range of portable gas detectors, offered in compact, lightweight designs from simple alarm-only units to advanced, fully configurable and serviceable instruments. Ideal for confined spaces, spot leak testing and mobile use, Honeywell's portable gas detectors provide real-time visibility into the status and safety of hazardous-area workers, helping companies respond faster, more knowingly and decisively to safety incidents. Applications include underground utility vaults, boiler rooms, post-fire sites, sewers,

HEAR WHAT'S WRONG, FIX IT

Predictive maintenance with ultrasound is the easiest and most effective way to prevent unplanned downtime. Protect your equipment and reduce energy waste.

ULTRAPROBES

HANDHELD TEST EQUIPMENT THAT FINDS DEFECTS EARLY

Robust enough to test and report on every aspect of your plant's equipment, but compact enough to fit in the palm of your hand. Versatile and easy to use, we have Ultraprobes for every application and budget.

THE POWER OF PUSH-TO-TALK:

Connect employees, apps and business tools with one button!

BPER delivers swift one-touch communication, powered by highly-reliable, cutting-edge features and sub-second response times. We enhance a wide range of compatible tough phones, feature phones or smartphones with walkie-talkie-like functionalities.We enhance the ultimate smartphone technology with the convenience of push-to-talk features.

WE EMPOWER YOU TO:

- Save time and money
- Use advanced GPS Location Tracking
- Access centralized web management
- Use multiple productivity apps while talking with colleagues
- Use multiple productivity apps while talking with colleagues
- Access unlimited channels and have contact lists which include 1,000 users
- See who is online and ready to chat with BPER Upgraded PTT availability indicator.

THE ADVANTAGE OF UNLIMITED COVERAGE

Allow your employees to have a single device which incorporates their smartphone, a wireless broadband handheld device and 2-way radio. Join BPER's extended 3G, 4G and 4G LTE networks to enable instant staff interaction, anytime, anywhere.

- Integrate GPS, mobile apps and phone camera in your PTT calls
- Secure crucial and timely information from any mobile device.
- Organize group calls where 250 people can join at the push of one button.

Bushnell

NO QUESTIONS ASKED

"YES, THAT'S COVERED"

Bushnell Speedster Radar Gun

measures speeds from 16 - 322 km/h at a range of up to 450 metres. The Speedster has LCD graphics display, pistol grip and shows the highest speed at the release of the trigger. The Speedster provides non-evidential speed accuracy (+/- 1.5 km/h) and the option to select between km/h or mph readouts. The unit is powered by 2C size batteries (not included) and comes with a draw-string pouch and instruction guide.

SAVE $50 IF BOOKING PHYSICS COURSE

RADAR GUNS

We offer two types of Radar Guns that can be used for:

- *Physics students to understand the Laws of Motion, Speed Measurements, the Doppler Effect and Speed Enforcement*
- *Sports students to measure tennis serves, bowling and pitching speeds (for cricket, baseball, softball)*
- *Schools and Mining Companies to use for conducting speed measurements and safety audits on roads surrounding their sites*
- *Schools to use for HPV (Human Powered Vehicle) races, cycling or solar challenges.*

Honeywell®
Analytics

The Dräger PARAT® 5500 fire escape hood was developed in cooperation with users – always with the focus on offering the fastest possible escape. Optimized operation and wearing comfort, a robust housing and a tested CO P2 filter ensure protection from toxic fire-related gases, vapours and particles for at least 15 minutes while escaping.

product design award 2014

NHIS

COMPACT ESCAPE HOOD

Dräger

The equipment is discreetly contained in a rucksack enabling the user to respond rapidly to an incident or event. Close liaison with the end user ensures the CRSI5 packcontents are tailored exactly to meet individual requirements.

RUGGED AND RELIABLE GAS MONITORING

KEEPS WORKERS SAFE AND CONNECTED

Honeywell®

When you perform tasks in potentially gas-hazardous areas, reliable performance monitoring is essential to ensure the job is done safely and efficiently. **Honeywell BW™ RigRat** is the most intuitive area gas monitor built for industrial applications on the market. It is the first gas detector available to offer a built-in noise sensor, analogue input, and location in addition to the flexible wireless features. **The RigRat transportable monitor works alone or can connect wirelessly to nearby devices to create a safety perimeter.**

BW™ RigRat offers you real-time situational awareness in area monitoring so you can make fast decisions to protect workers and infrastructure.

comdronic ltd

Optical Project
Application Software

Specifications:

Range	0.1 to 600 kPa
Accuracy	1 to 20 kPa ± 0.2 kPa
	20 to 600 kPa ± 1.0% of reading
	Hysteresis 0.2% of span
	Zeroing at each reading will remove this
Static Pressure	20 Bar maximum with braided hoses
Operating Time	20 hours with standard Alkaline PP3 battery
Accessories	Tool belt for hands free portability
	Replacement hoses up to 3 metres in length
	Mechseal style and range of insertion adaptors
	Replacement binder style adaptors

OMNI TDI 200H

Specifications

- Non-invasive. No pipe disturbance. No moving parts. No pressure drop. No maintenance.
- High accuracy, better than ±1%
- Easy and economical installation. No pipe cutting, no hole drilling.
- Wide measurement range, 0.03 ~105ft/s (0.01 ~ 32m/s)
- Wide pipe size range, 0.5" ~ 240"(DN15 ~ DN6,000mm).
- Integral data logger.
- Suitable for all commonly used pipe materials.
- Signal quality tracking and self-adjusting capabilities.
- Velocity, volumetric and totalized flow.
- Weather-resistant enclosure.
- Ideal for both clean and opaque liquid flow measurements.
- Rechargeble battery for up to 10 hours..

EMERSON

AMS Trex

Transform Reliability in the Field.

Do More With A Single Tool, From A Single Provider.

The AMS Trex Device Communicator provides the tools field technicians need, in one ruggedized, intrinsically safe, easy to transport package.

Speed maintenance in the field using Power the Loop technology. AMS Trex allows users to power devices in the field directly from the handheld eliminating the need to locate and carry a compatible power supply.

Streamline documentation and improve data accuracy by automatically recording device configuration changes made in the field and Synchronizing these changes.

Go anywhere in the plant with a built for purpose tool, intrinsically safe and designed to take the bumps and drops that come from normal use in the plant.

Avoid unnecessary repairs with advanced diagnostics by predicting and preventing valve failure.

AlcoMate® Premium

Breath Alcohol Tester (Model AL7000)

Features & Benefits

- No calibration service required (PRISM™ Sensor Technology)
- DOT approved for law enforcement (accuracy +/-0.01 at 0.10% BAC)
- Easy one-button operation
- Easy-replace PRISM sensor panel and sensor modules
- Back-lit 4-digit (0.000%) LCD display
- Active pressure sensor / deep-lung air Sampling
- Cumulative test counter / audible alerts / low battery indicator
- One-way-flow mouthpieces / internal mouthpiece storage slot
- Self-diagnostic system / auto power off

AlcoMate® Components

1. Power button
2. Digital display
3. Mouthpiece
4. Mouthpiece slot
5. PRISM™ (Sensor Module)
6. Battery cover
7. Easy-replace panel
8. Mouthpiece storage slot
